

Speed controllers type Varionys One

Mono-phased speed controller

Brand

France Air

Application

- Speed controller for speed controllable motors
- 0 - 100% variation
- Compact and simple in usage
- Suitable for built-in as well as for surface mounting

Composition

- Plastic enclosure, ASA
- Supply: 230 Vac - 50 Hz
- Infinitely variable control
- Fuse (A) (5*20 mm), spare fuse included
- Minimum speed setting by trimmer
- IP: 44 (built-in mounting) / 54 (surface mounting)
- Max ambient temperature: 35°C
- According with: 2014 / 35 / UE /
- Directive : EMC : 2014 / 30 / UE.

Order example

Varionys One 1.5

Varionys= type

1.5 = max current

Wiring diagram

Connections	
1	Conexiune la retea: 230 VAC - 50 Hz.
2	leşire nereglată de 230 VAC pentru conectarea unei lămpi, valve, valve etc. sau conectarea unui motor cu trei fire.
N	Nul.
3	leşire reglată către motor
4	Suport de siguranțe cu rezervă
5	Trimmer de reglare a vitezei minime.
