

Multi-leaf dampers type JB 100 4

Volume control dampers 100 mm pitch, certified CLASS 4 according EN 1751

Application

- For air-stream regulation in ventilation and airconditioning systems

Material

- Galvanized steel frame
- Extruded aluminium blades
- Counter rotating movement by train of gear wheels made of nylon
- Driven by manual control or servomotor

Colour

- Galvanized steel

Composition

- Galvanized steel frame
- Extruded aluminium blades
- Counter rotating movement by train of gear wheels made of nylon, driven by manual control or servomotor.

Mounting

- By bolts on flanges corners

Accessories

- Manual control handle with fixing system **MCS 10T**
- Driven by servomotor

Text for tender

- The multi-leaf volume control dampers shall be of the type in galvanized steel with counter-rotating blades, aluminium gears, round axle and polyamid bearings.
- Cairox type **JB 100 4**

Multi-leaf dampers

Order example

JB 100 4, 700, 610, MCS 10T

Explanation

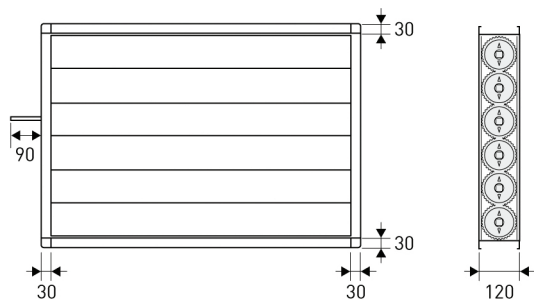

JB 100 4 = Type of multi-leaf damper

700 = Length

610 = Height

Accessories (Optional)

MCS 10T = Manual control

Model	A [m2]	Dimensions							
				Q [m3/h]		Dp (a=40°) [Pa]		LWA (a=40°) [dB(A)]	
		min	max	min	max	min	max	min	max
