

Mounting foot for spiral ducts type RTBF

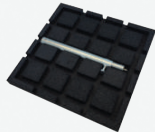

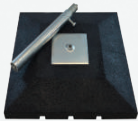

Universal mounting feet with rubber anti-vibration mat for quick installation of galvanized spiral ducts on a flat surface.

Application

- Used for supporting ducts in combination with duct suspension clamps OBMC
- For duct mounting over flat roof or surfaces
- Faster assembly than traditional systems

Composition

- Extensible rod made of galvanized steel
- Equipped with a rubber anti-vibration mat 330 mm x 330 mm x 60 mm
- Adjustable height between 330-510 mm
- Fixing thread M8
- Maximum load capacity 80 kg
- Telescopic rod is integrated into the base upon delivery

	Step 1	Step 2	Step 3	Set up time
PST-C				< 15 seconds 
CONVENTIONAL SYSTEM				> 60 seconds
