

Tiger support for PIR-plates type TSS

The Tiger Support supports small and medium size ductwork, Support Size: 70 x 60 x 70mm Points Height: 17mm

Application

- With its punched-in prone points, the Tiger Support is applied directly to the duct, without the need for drilling holes, or using screws and rivets
- It incorporates a rear housing to accommodate threaded bars (max. diameter 8 mm)
- The spacing between the supports remains unchanged and is limited to 4,000 mm between support centres
