

Fire resistant air exhaust valves EI120 type SCV+120

White fire resistant ventilation exhaust valves with thermal fuse of 72°C and fire resistance class EI120(v_{eo}->i)S

Application

- For ventilation purposes and fire compartmentation in walls with fire resistance of 60 minutes

Material

- Steel

Colour

- White, RAL 9010

Certification

- Conforme according EN 13501-3
- Classification EN 1366-2
- Service pressure 300Pa

Accessories

- End of range switch

Text for tender

- The ventilation valves will be fire resistant EI60(v_{eo}->i)S with thermal fuse of 70° and equipped with mounting frame.
- Finished white, RAL 9010
- SIG Type SCV+120

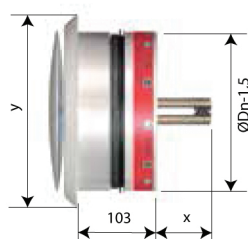

Order example

- **SCV+120, 125**

Explanation

SCV+120 = Type of fire resistant valve

125 = Connection diameter

ØDn (mm)	100	125	160	200
x	20	33	51	71
y	145	170	195	235
