

Condensate pumps type EE150

- Low-noise centrifugal pump with 1.5-metre-long mains cable
- Integrated non-return valve prevents the backflow of condensate into the container.
- Compact construction.
- Attractive design.
- Stylish wall cladding.

Application

- Split units up to 10 kW

Specifications

- Max. flow rate: 120 l/h
- Max. flow height: 1,5 m
- Condensate reservoir : 0,2 l

Mounting

- Incl. wall cladding, mounting below the air conditioner

Dimensions

- (L x W x H): 165 x 65 x 85 mm

Technical data

- Electrical data: 230 V, 50/60 Hz, 48 VA
