

## Duct temperature sensors type DTS 100

Duct NTC temperature sensor

### Application

- Measuring air temperature in ventilation ducts

### Specifications

- Temperature range: -30 ... +105°C
- Time constant: 15 s
- Casing: plastic

### Mounting

- Duct

### Dimensions

- Sensor length: 230 mm
- Cable length: 1500 mm
- Connection piece to duct: 40 mm diameter
- Connection piece holes for duct mounting: 3.2 mm diameter
