

- Differential pressure sensor
- Adjustable operating range

Differential pressure transmitters type DPS

Differential pressure transmitter with display and selectable measuring range

Application

- Measuring differential pressure
- Measuring fan pressure/ volume air
- Monitoring pressure/ volume air in clean rooms

Specifications

- Adjustable range: 0-100 Pa / 0 - 300 Pa / 0 - 500 Pa / 0 - 1000 Pa
- Supply voltage: 24 V AC
- Output signal: 0 - 10 V DC and 4 - 20 mA
- IP 54

Mounting

- Wall / Duct

Accessoires

- Connection hose + measuring nipples, type **CONNECTIONSET**
- Current transformer 230V / 24V AC, type **Trafo 15/D**

Technical data

- Power consumption: 5 VA
- Medium temperature: 0 to 70°C
- Accuracy: +/- 1% at 20°C
- Connection hose nipple: 6 mm
